APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)  
NAVIGABLE WATERS PROTECTION RULE**

**I. ADMINISTRATIVE INFORMATION**

Completion Date of Approved Jurisdictional Determination (AJD): 7/14/2021

ORM Number: 2021-00895-JLK

Associated JDs: N/A

Review Area Location<sup>1</sup>: State/Territory: Wisconsin City: Hustisford County/Parish/Borough: Dodge

Center Coordinates of Review Area: Latitude 43.33790 Longitude -88.60100

**II. FINDINGS**

**A. Summary:** Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- ☐ The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- ☐ There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- ☐ There are "waters of the United States" within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- ☒ There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

**B. Rivers and Harbors Act of 1899 Section 10 (§ 10)<sup>2</sup>**

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination

<sup>1</sup> Map(s)/figure(s) are attached to the AJD provided to the requestor.

<sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

**D. Excluded Waters or Features**

Excluded waters ((b)(1) – (b)(12)): <sup>4</sup>				
Exclusion Name	Exclusion Size		Exclusion <sup>5</sup>	Rationale for Exclusion Determination
Wetlands A and B	0.24	acre(s)	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	The wetland delineation map shows immediately surrounding areas are uplands involving commercial development including manicured lawns in the central portion of the review area, additional commercial development to the north and south, and paved roadways to the west and east. A review of historical aerial photos provided via Google Earth and Dodge County GIS (photos taken 03/2018, 04/2017, 06/2015, 04/2014, 07/2011, 06/2010, 05/2010, 06/2008, 06/2006, 05/2005, 05/1992) and ground level photos provided in the delineation report illustrate these features are man-made linear ditches constructed before 1992. Furthermore, historical aerial photos do not indicate wet signatures where the ditches were constructed. A review of a soil map provided via the Wisconsin Wetland Inventory shows minimal mapped hydric soils within the review area and further review of the Wisconsin Wetland Inventory and delineation map illustrates these ditches do not relocate a tributary and were not constructed in a tributary or wetlands. All this information combined demonstrates these ditches were originally constructed in uplands and designed to convey water runoff. Based on this information, these wetlands are a (b)(5) Ditch that is no (a)(1) or (a)(2) water and are therefore not regulated by the Corps under Section 404 of the Clean Water Act.

**III. SUPPORTING INFORMATION**

- ☒ Photographs: [Aerial and Other: Google Earth and Dodge County GIS.](#)
- ☐ Corps site visit(s) conducted on: [Date\(s\).](#)

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
